STOP FIRE
G. TTOFATZIAES LTD

HEAT ALARM / DETECTOR PW-560H 10 YEAR LIFETIME & BATTERY

LONG LIFE

10 YEARS

Long Battery Life

Product Details:

The PW-560H stand- alone heat alarm was designed with precise Microprocessor control integrating both Rate of Rise and Fixed Temperature heat detection. It's perfectly suitable for installation in all environments especially in the kitchen, garage, factory etc.

Product Features:

1.Electronic thermistor sensing;

2.Standard quality to provide accuracy and stability;

3.Uses a microprocessor for circuit control to assume performance stability and reliability;

4.Easy installation and maintenance;

5.Hush button, to stop the alarm from sounding;

6.Five year limited warranty

TECHNICAL SPECIFICATIONS	
Power Supply	9V Lithium Battery CR-V9
Operating Temperature	-5∘C to 40∘C
Relative Humidity	15% to 90% RH, noncondensing
Alarm Indication	Audible and visual alarm
Buzzer Output	>85dB at 3m
Dimensions	∅102*43mm (with base)
Material	ABS
Test Facility	Yes, test button to verify operation
Interconnection	Up to 11 additional detectors
Sensitivity	Meets EN54-5 and UL521 standards
Response Temperature	Fixed temperature: 57∘C
	Rate of Rise function: >6.7∘C per minute
